

Student Refusal to Engage in Learning

Today, _____, I, _____, have chosen not to take part in learning during my _____ class. I understand that this goes against what my teacher has asked me to do and that this choice may hurt my grade.

I take responsibility for my actions and understand there will be consequences for this decision. I also know that this form will be sent to my parents/guardians and the dean of students.

Even though I made this choice, I understand I must not distract or stop other students from working toward their learning goals.
